

## Hello Member's

With the increase of COVID – 19 cases in Ontario and our community, it is putting a big strain on our Long-Term Care, Hospital and Community frontline workers.

Let us take this time to thank the frontline workers for their dedication and hard work each and every day.

This is a time where we need each other the most. Emotionally, physically, mentally, spirituality, together we will get through this. We can't do it alone!

We are calling on the government to take more action to protect the patients, residents and the frontline workers.

It is the government's responsibility to provide you with N95, PPE and have controls in place to protect you.

Our union has been advocating on behalf of our members before COVID -19 of WORKING SHORT and the impact it has on everyone.

For our laid-off members and our frontline workers, please reach out to the local if you need anything. We're here for you.

And for updates please check the Local 1106 website or the National website.

Stay safe. Support each other.
