

# Unifor Summer Summit

---

## #BuildBackBetter

Last week, we held our very first Summer Summit – an event that was held entirely online. This was a new undertaking for our union.

I want to thank all of you who participated and attended some of the live and closed events. We were thrilled to see many local unions and members connect online, share comments, and participate in the broader conversation on how we can Build Back Better for workers.

If you weren't able to join us live, or if you want to watch any of the Summit events again, we encourage to watch the live events at the links below and share with your members.
